

Project Validation Report

Generated 2026-06-02 09:22:56 for the current project workspace.

This report summarizes the data assets in the project, baseline analytics, scenario validation, and risk analysis. Red highlights risky outcomes, while green highlights low-risk outcomes.

Project Metric	Value
Datasets analyzed	6
Validation scenarios	2
Baseline revenue	-
Baseline rows	-

main.py Execution Snapshot

This section reflects the instance result produced by running the current main.py entry point, including the baseline analytics, simulation output, validation metrics, and risk score.

main.py Output	Value
Baseline total revenue	-
Baseline rows	-
Simulation model	price_elasticity_linreg
Simulation revenue delta	10.10%
Simulation confidence	40.0%
Validation MAPE	3.02%
Validation directional accuracy	0.00%
Risk level	Low
Risk score	30

Dataset Coverage

Dataset	Rows	Columns	Missing %	Notes
customer_data.csv	4500	5	0.00%	Key numeric fields: LTV, churn_flag, tenure
financials.csv	18	5	0.00%	Key numeric fields: revenue, expenses, profit
hr_data.csv	52	5	0.00%	Key numeric fields: salary
marketing_data.csv	75	5	0.00%	Key numeric fields: budget, leads, conversions
ops_data.csv	108	4	0.00%	Key numeric fields: overhead, utilization, output
sales_data.csv	5655	6	0.00%	Key numeric fields: revenue, units_sold, price_per_unit

Validation Metrics

Metric	Value	Threshold	Status
MAPE	3.02%	18.00%	Review
Directional Accuracy	0.00%	80.00%	Review
RMSE	23.88	-	Informational

Risk Analysis

Scenario	Magnitude	Predicted Revenue Delta	Confidence	Risk Level	Risk Score
price_10_pct	10 percentage	10.10%	40.0%	Low	30
price_20_pct	20 percentage	20.21%	40.0%	Medium	50

price_10_pct - Low risk (30/100): Low risk decision because: Churn delta > 2%, Confidence < 60. Factors: Churn delta > 2%, Confidence < 60.

price_20_pct - Medium risk (50/100): Medium risk decision because: Magnitude > 10%, Churn delta > 2%, Confidence < 60. Factors: Magnitude > 10%, Churn delta > 2%, Confidence < 60.

Threshold Reference

Model	MAPE Threshold	Directional Accuracy Threshold
Price	18.00%	80.00%
Headcount	25.00%	70.00%
Marketing	20.00%	75.00%
